

Amendments to the Drawings

The attached sheets of drawings show proposed changes to Figures 1, 2, and 3. In Figures 1 and 2, reference numeral 54 designating an optional gauge has been changed to 53 to correspond to the specification at page 8, paragraph 4, line 3. In Figures 1, 2, and 3, connections 50a and 50b are now shown between computer 50 and the X and Y axis drives. In Figure 1, connections 52a and 53a are shown between gauges 52 and 53 and the computer 50. It is believed that the changes are supported by the original disclosure, and that no new matter is added.
